

## SUSTAINABLE POLICY

### CLOUD5 BARCELONA ENVIRONMENTAL SUSTAINABILITY POLICY STATEMENT:

CLOUD5 BARCELONA is committed to integrating the sustainability and environmental dimension into all its activities and services, in the search for and implementation of a model of society that is committed to sustainability.

CLOUD5 BARCELONA, through this declaration, assumes the commitment to work for *environmental management and sustainability, social inclusion, dignity and equality, solidarity and pluralism as well as promoting local and proximity tourism and responsible communication*. Likewise, it assumes the role of a tourist rental management company, as a reference and quality label, in accordance with the guidelines of the Biosphere label and the World Charter for Sustainable Tourism +20.

To achieve this objective, CLOUD5 BARCELONA expresses its will through this declaration of sustainability and environmental policy, assuming the following commitments:

To adopt the necessary measures **to guarantee compliance with applicable environmental regulations**, trying to go beyond the regulatory minimums in those activities that are possible.

**Establish a management system to prevent, reduce and eliminate** the environmental impact derived from its activity, as a sign of its commitment to the prevention of pollution and the continuous improvement of our environment.

To promote the saving of **natural resources, raw materials and energy**, rationalizing consumption by adopting the necessary measures.

Promote the **reduction and recovery** (reuse, recycling and recovery) of **waste** generated by the activity.

To consider **environmental criteria in the planning and management of property infrastructures**, both in the design, adaptation and use of its spaces and properties.

*To introduce social and environmental clauses in the procedures of contracts and purchases, promoting, in general, special conditions of execution for suppliers and contractors in order to guarantee an adequate level of environmental quality.*

*To raise awareness, inform and train the entire community of collaborators and customers to ensure that the guidelines set out in the environmental policy are observed, promoting their active participation in environmental management and in improving the quality of the environment.*

To promote the incorporation of the **concepts of social responsibility and sustainable development**, and their main contents, in the transversal competences of the activity.

*To establish annual objectives and goals that allow the commitments of this declaration to be assumed, as well as to carry out continuous monitoring of the environmental impact of the activity and to work towards continuous improvement with respect to the environment.*

In order to achieve these commitments, the collaboration of our entire team, our clients, collaborators and the companies linked to our activity will be necessary so that they understand and promote their objectives and proposals, especially those that have direct consequences on the commitments made in this declaration.
